My ID – MEDICAL INFORMATION SYSTEM

Pleasantville Volunteer Ambulance Corps (PVAC) has recently partnered with My ID to create a new file of life program for our residents. During emergencies, our EMTs need vital personal and medical information to help treat you or your loved ones. The My ID system is an easy way to communicate medical information quickly to our crews. Our residents can store, manage, and access medical information quickly and easily by creating a MyID online medical profile. This profile is linked to one of their many different kinds of products. While My ID offers a myriad of products, the least expensive product is the sticker kit, which can be put on refrigerators, medicine cabinets, etc. With our partnership, all orders placed with this code will receive free shipping (code below). We are more than happy to meet with you to help with the sign-up process. If you have any questions, please feel free to email us at PR@pleasantvillevac.org.
